MY NAME IS JB STANLEY

I've been building custom homes for almost 50 years, and I have no intention of slowing down any time soon. Building quality custom homes is my passion, so much so that I personally oversee each home throughout the process. Why? Because each home represents someone's dream...a dream to live in a beautiful, comfortable, luxurious space...and at JB Stanley Custom Homes, that dream can become a reality.

So...what's your dream?

CUSTOM HOMES

we're listening...

At JB Stanley, we know one of the most important attributes that makes for a successful project is communication. We listen to what our customers tell us about their lifestyle, their vision, and their concerns about building a new home.

We were founded on the premise of single-source accountability. Having architecture, design and construction expertise in one firm streamlines the design/build process and saves months of time. Our systems check and double check every aspect of the plans and specifications for your home. Every person on the project has immediate access to the information they need – so questions are easily answered, problems are avoided and delays are averted.

Your home should be a joy to live in and a pleasure to own – but what sets us apart is our desire to make the home building process equally rewarding. You can rely on us for complete customer service from the first idea to final move in and we'll be by your side for as long as you own your JB Stanley home.
