

Always up to date, this course is designed to meet the Arizona biennial four-hour ethics CPE requirement for CPAs in industry renewing their licenses. In addition to meeting Arizona State Board of Accountancy requirements, the course includes materials and examples designed to reinforce the CPA's working knowledge of professional ethics standards. Just as our economic times have changed, the Code of Professional Conduct is also changing. Keeping informed as the Code evolves will require that every CPA periodically checks professional ethics standards and is conscious of both accounting and business ethical issues.

All rules and policies apply to this program. Refer to the ASCPA Resource Guide - CPE Catalog for more information or contact the CPE Department at 602.252.4144, x213 or AZ toll-free 888-237-0700, x213.
